<p>How the product provides fair value to the customer and whether it will continue to do so for a reasonably foreseeable period</p>	<p>The product has been in force over 20 years and has some long-established customers.</p> <p>The level of cover required can be selected based on the needs of the customer and their budget, offering a range of suitable benefits.</p>

<p>(including following renewal)</p> <p>We must not market the product or permit the product to be distributed (whether directly or through another person), unless appropriate changes are made so that fair value will be provided</p>	<p>New and existing business has a fixed, community rated price and is regularly reviewed at product level using underwriting data and competitor analysis to ensure the product is suitable and meets the customer's needs.</p> <p>The price at renewal is fixed and businesses can choose to accept the price, transfer to an alternative provider, or cancel the policy. Our renewal rate is 90% and pricing is benchmarked against the competition ensuring fair value for customers.</p>
<p>Statement</p>	<p>As part of the review, we have assessed the cost of the product to the customer against the benefits available for use including additional wellbeing benefits available to them and the distribution of the product.</p> <p>The fair value measures assessed are all within business appetite and the product is deemed suitable for the intended target market, with no material issues raised in relation to distribution or service.</p> <p>We would like to remind distributors that any fees charged (whether this relates to new business, renewals, mid-term adjustments, or cancellations) should not reduce nor negatively impact the intended product value and should always reflect the work and services provided by you for which the fees charged.</p>
