How do I access Care After Hospital?

Care After Hospital is not a cash benefit: you must follow these simple steps so that the care advisory team can find the **Home Care** for **you**.

Step 1

Ring the care advisory helpline. **You'll** need **your** Westfield Health policy number. The care advisory team will explain how the service works. The care advisory team will verify **your** entitlement with Westfield Health before arranging care.

Step 2

Before they can arrange a **Home Care** package the care advisory team will discuss **your**, or (with their permission) **your partner's** or **your parent's** needs with **you**. Our **Home Care** package is not intended to replace any discharge arrangements such as Intermediate Care made by the **Hospital**, NHS community team, or Local Authority, but to complement them. Our care advisory team will provide advice about your statutory entitlements and carry out rapid research into appropriate care providers, and provide a written report for **you** to make the final choice.

Step 3

The care provider that **you** select will visit **you**, or **your partner** or **parent**, to agree a package of care with **you** and carry out an assessment.

Step 4

You will advise the care advisory team of the agreed **Home Care** to be delivered, the commencement date, and home visit timings. The care advisory team will confirm this with the care provider.

Step 5

The care advisory team will pay the care provider for the first 18 hours of **Home Care**, at the money back rate that applies to **your** level of cover. If your cover level means **you** are liable for part of the cost, then the care provider will invoice **you** direct for this part. Let the care advisory team know if **you**, or **your partner** or **parent**, need any further help.
